

MOTION BY SUPERVISOR MICHAEL ANTONOVICH

SEPTEMBER 29, 1981

On July 30, 1981, this Board supported legislation required to permit the temporary reemployment of retired County employees. That legislation, AB 529 (Rosenthal), has gone to the Governor's office for action by October 1; and the Chief Administrative Officer/Director of Personnel is currently working with the Retired Employees Association of Los Angeles County to establish implementation plans during the month of October.

The use of retired employees can form an important element of the County's overall productivity improvement program.

SB 529 will enable us to continue to utilize the skills and knowledge of experienced employees on specific assignments, even after they have retired.

In addition to paid employment, a number of retired employees have expressed a willingness to participate on a volunteer basis in various County program assignments. This represents a potential for cost reduction by expanding volunteer services in a variety of public programs with a cadre of experienced and competent retired employees, and other interested citizens who want to volunteer.

1. THEREFORE, MOVE THAT:

1. The Chief Administrative Officer/Director of Personnel be instructed, in cooperation with the Retired Employees Association of Los Angeles County, to establish a linkage between retirees available to provide public service time on both a volunteer and paid basis and departments which can use these services.

A/D MOTION
